

Cloud Infrastructure Assessment

Current Environment

Provider: AWS

Services Used:

- EC2
- ECS
- RDS PostgreSQL
- S3
- CloudWatch

Monthly Infrastructure Spend

Service	Monthly Cost
Compute	\$22,000
Storage	\$5,500
Database	\$8,000
Monitoring	\$2,000

Total Monthly Cost: \$37,500

Key Constraints

- Infrastructure budget cannot increase by more than 20%.
- New solutions must support horizontal scaling.
- Vendor lock-in should be minimized.
